 - Holidays
- and more...

You can buy or just bring in your Paper, Card Stock, Vellum or Napkins that you would like to letterpress print or Hot Foil onto.

WE CAN DO ANY OF THE FOLLOWING:

- Letterpress Printing
- Letterpress Printing and **Hot Embossing**
- **Hot Foil Printing**
- Or mix it to suit your needs
- Call or e-mail us for a pricing sheet

Make your own Wedding Invitations

We print your cards or inserts using a Vandercook or Adana letterpress. So just bring in your Card Stock, Vellum or Paper for us to print it for you.

We also can order the Paper, Card Stock, Vellum or Napkins for you, from our large range of swatch card samples in store.

- We can Print, Heat Emboss or Hot Foil it for you.
- You can mix any of the above to suit your needs.

Just call us or e-mail us for a price list or information about our services.

We also make customized Rubber Stamps for your envelopes or logo for embossing or just simply printing on your cards.

Tips on making your own

Invitations

- Always first make a sample of your Invitation
- Pick the type of **Card Stock** or **Paper** you plan to use for your Invitation
- Bring in a sample of the **Card** or **Paper** stock for us to see if it is suitable for Letterpress Printing and Embossing if required
- If artwork supplied by you, always do your artwork in **black** and **white** even if you are printing in **colour**. It must be in 300dpi+ (The higher the dpi the better the quality of the print. For example a 1200dpi artwork has smoother edges than a 300dpi artwork.)

Supply artwork in **PDF - TIFF – JPEG**

Please call about other formats if you can't supply in the above formats.

Print on Paper, Card Stock, Vellum, Napkins and more.
